Student Name:

use a wedge and a pin
Locked Unlocked

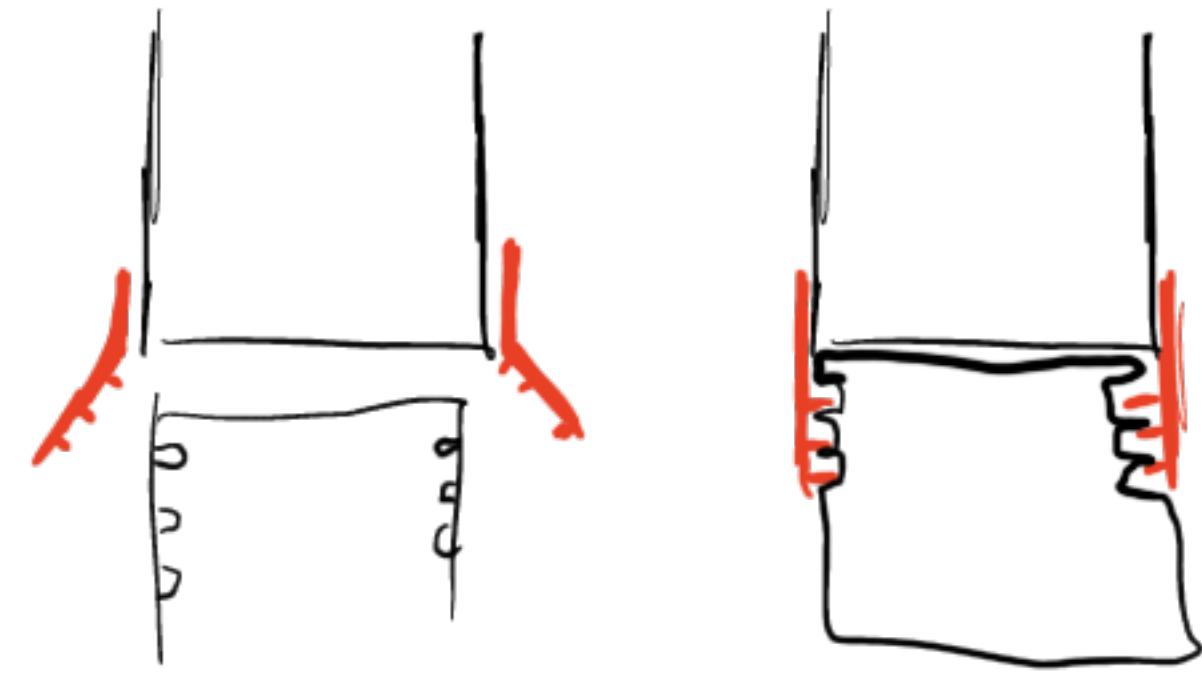

URS ucu herde
Lead screw ekseninde dönüyor.

Lead screw saru şeye
fix, o şey serbestten
normal donuyor.
Sarı şey tooldaki
yuvasına oturunca
dönemiyor Lead screw i
Tutuyo. Bu nedenle Lead
screw üstündeki siyah
parça aşağı
İnmeye baslıyo, belli bir
süreden sonra wedgeleri
itmeye baslayı
Toolu tutuyo

use multiple hooks that can be
switch between open & closed
configs mechanically

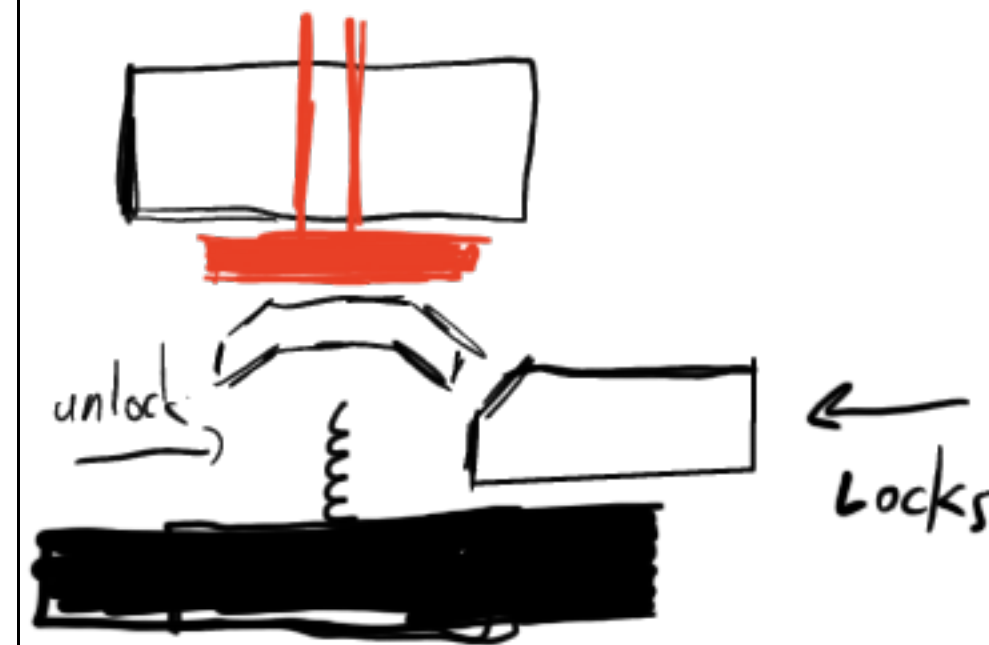

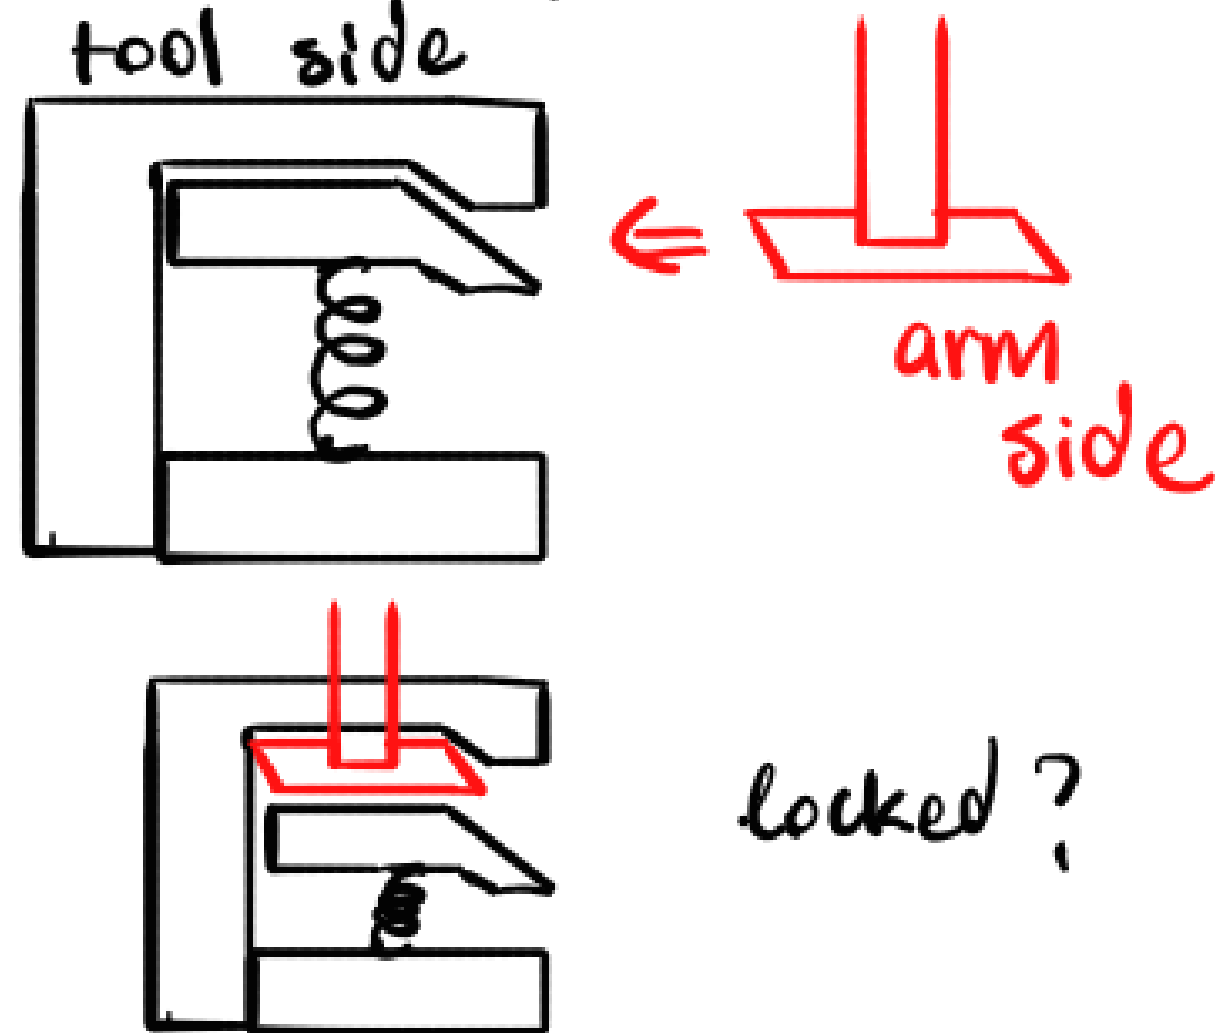

Instead of hook we can use
continuous strips

fills whole perimeter
